

# Booking terminal

Reservations for everyone, everywhere

**Reserved**

*prima*

# Convincing bookings!

With the Prima solution, anyone can securely book a room using a smartphone, desktop computer or even a touch screen device with a built-in reader. Complex reservation rules can be managed in a simple way for each reservation period and for each group of people. Controlled access to sports gyms, school facilities, laundries or individual machines and devices has never been so well organized.

## Advantages with Prima's booking system

### A smart booking system with comprehensive oversight

- Book specific facilities on predetermined days and time slots via the user friendly and manageable calendar
- Manage reservation window and duration period, time and capacity limitations, booking invitations and non-attendance cancelation features

### Secure access with strict rules

- Only users who have reserved the room are granted access in the chosen time period.
- System will automatically enable access also at access points where necessary - e.g. parking and main entrance

### Extensive use

- Smooth creation of booking rules gives you great flexibility
- You can embed all booking schedules into your website
- A flexible selection of equipment allows you to make immediate reservations regardless of where you are at the moment
