

Locker locks

Securing lockers, cabinets and server rooms

prima

Reusable and flexible!

The offline compact locker locks are suitable for cabinets that need controlled, yet flexible locks. Access rights are straightforward configured in the Nova software, similar to wired components. The system can be easily upgraded to wireless online, which enables full control anywhere and anytime.

Advantages of the Locker lock

- Fits indoors on any cabinet with a wood, steel or aluminum surface
- Suitable for lockers, cabinets, cupboards or furniture doors at educational institutions, sports clubs, businesses, medicine etc.
- Can be installed either horizontally or vertically, as well as to the left or right of the locker - same as the mechanical furniture or cabinet locks.

Advantages of the Rack lock

- A third-party integration possibility
- SensoLock® can be installed on a swing handle
- Suitable for server racks and cabinets, where restricted employee access is wanted
